

What gem are you?

Being a nimble charity, we can direct funds to where they are most needed; often to places overlooked by others.

Doctors doing good.

# Gems:

They're precious, valuable, and created under pressure.

That's why gemstones represent the tiered giving of supporters of AMA Queensland Foundation, a one-of-a-kind charity borne of the pressure of a failing health system adding to disadvantaged Queenslanders' pain and suffering.

The AMA Queensland Foundation was established in 2000 by a group of like-minded doctors, as a means of relieving sickness, suffering and disability among Queenslanders in need.

Our charter is simple: **doctors doing good.**

Some of our proudest achievements include:

- Purchase of a vital signs monitor for Thargomindah hospital and ambulance service, used in lifesaving circumstances
- Supply of wheelchairs and electric adjustable beds for patients with muscular dystrophy in rural and remote Queensland
- Equipment and educational toys for the Royal Children's Hospital music therapy and rehabilitation programs, made possible through the Stan and Maureen Duke Trust
- Specialised equipment for Red Hill Special School students who have multiple and complex disabilities
- Replacement of a vaccine fridge for Aboriginal Health Centre in Charleville following flood damage
- 13 scholarships to medical students enrolled at James Cook University, experiencing financial hardship, who have a demonstrated commitment to working in rural medicine
